

See **RTR** at **IFSEC 2011**

Visit us at IFSEC 2011 and see all the latest products from our extensive range of access control and security solutions.

RTR Services will be launching the following exciting new solutions:

- iContactECO to Smoke Vents
- Remote Office access using Conlan unit connected to iContactECO .
- Remote Post Box Access.

We will explain these solutions further in future emails closer to IFSEC 2011.

RTR Services provide remote asset management via our GSM/GPRS unit and using state of the art technology within our iContactECO we can monitor, control and report on any type of electro mechanical device any place, anytime, anywhere.

iContactECO has been designed for maximum versatility which can be tailored to suit your requirements. We are dedicated to working closely with our clients to ensure specific requirements are fully met whilst ensuring the solution is delivered on-time and within budget. We would be happy to discuss any requirements you may have during the IFSEC 2011 event.

Having attended the show for the last 5 years it's an excellent meeting place for all our UK and overseas customers. RTR will once again be exhibiting with our Danish manufacturers Conlan Aps. They will be showing their full range of Wiegand devices for access control. The range includes Keypad, Proximity with Card or Tag, Fingerprint and combined readers.

See you at Stand 3/H1, Hall 3A at the NEC Birmingham, from 16-19th May 2011.
